An error occurred. Plague Inc: Evolved key offers a strategy simulation game developed by Ndemic Creations. It's an eerie simulation game that combines high levels of strategy with terrifyingly realistic simulation. Create your pathogen and infect a selected country. Over time it will evolve and spread, turning into a global genocide virus creating the end of human history. Buy Plague Inc: Evolved key and choose from 10 different disease types, master each pathogen and create virus capable of ending humanity once and for all. The Plague Inc Evolved price is not paid by you, it is paid by the human race, trembling in fear from the virus you have spread, and if everything goes as planned, gets wiped out completely by the end of it! Participate in 23 unique scenarios, customize your strategy, as the scenarios will create additional challenges that prevent your created virus from spreading. Plague Inc Evolved key unlocks a highly competitive co-op mode and a great content editor to develop your very own custom scenarios, new new types, worlds, and even in-game events! It's a scary game, and a constant reminder of how quickly things can go south because of the right circumstances. Fortunately, at least for now, you are the one inflicting the damage, instead of the one who suffers from it. The pathogen has infected the patient called zero, and now we bring the end of human history through the development of a large and deadly plague, while the rest of humanity struggles to defend itself against this infectious virus. Multiplayer has several forms of cooperative and competitive games that allow you to compete in a race to kill the world. We can develop our own custom scenarios, with the creation of new types of plague, thanks to his maker levels. Now the roles have changed, instead of defending the world from a global crisis, as in most games, Plague Inc: Evolved we must destroy it. Publisher - Ndemic Creations Categories - Simulation Games Strategy Games Indie Games Plague Inc: Evolved is a unique blend of very strategic and awesome realistic simulation. Your pathogen just infected Patient 0, and you have now...
